

## Recipes

### OUBLECK:

Quart water

Cornstarch

Food coloring (optional)

Put the water and food coloring in a large bowl and begin adding the corn starch and mixing. The mixture will get thicker; keep adding and stirring. Approximately equal amounts of each.

### GLURCH:

Liquid laundry starch

White glue

Food coloring (optional)

Approximately 3 parts glue to 4 parts starch. Stir & knead glue until it has the consistency of Silly Putty.

### GLORAX:

Distilled water

Borax

White glue

Food coloring (optional)

Stir borax into the water until it won't dissolve anymore. Stir in glue until it forms a thick slime.
